## Index

1. Setting up S3Browser for accessing assigned directories.
2. Adding details to CSV files

### 1. Downloading S3 Browser:

- a. Visit <http://s3browser.com/> and click on download button to get the setup file. Save it on your local drive.

- b. Go to the same location of your local drive where you have saved the setup file and double click on the setup file "s3browser-4-9-7.exe" which will start the installation process.
- c. When you double click, it will confirm if you are ready to run this installation file. Please click on [Run].
- d. Then the system security will also check for access rights to install and "User Access Control" dialog box appears. Please click on [Yes] to proceed.
- e. S3 Browser installation process starts. Please follow the on screen instructions to complete the installations.
- f. Once the setup and is done and after you click [Finish] the S3 Browser program ask to setup an Account.
- g. On Account setup dialog box please fill all the highlighted information provided by Click&Pledge as shown in below screen. Then click [Add Account].

**Add New Account** [online help](#)

Enter new account details and click Add new account

**Account Name:**  
Here comes the Account Name (Friendly Name)  
You can assign any name to your account. S3 Browser uses it to distinguish one account from another.

**Storage Type:**  
Amazon S3 Storage  
Choose the storage you want to work with. Default value is Amazon S3 Storage.

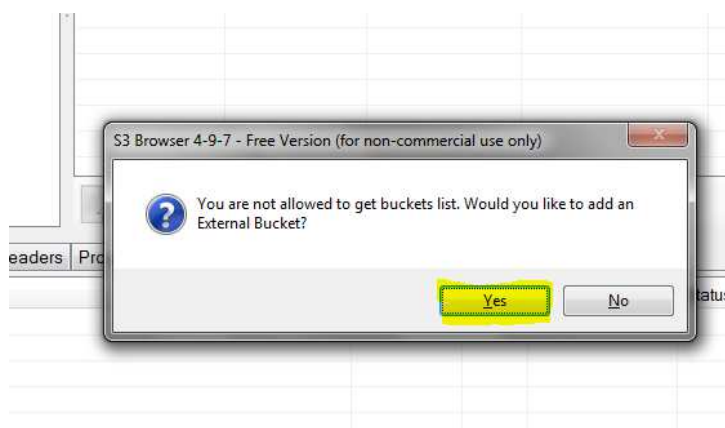

**Access Key ID:**  
Here comes an Access Key which has been provided by Click & Pledge  
Access Key ID can be found here: [https://console.aws.amazon.com/iam/home?#security\\_credential](https://console.aws.amazon.com/iam/home?#security_credential)

**Secret Access Key:**  
Here comes an Secret Key which has been provided by Click & Pledge  
Secret Access Key can be found here: [https://console.aws.amazon.com/iam/home?#security\\_credential](https://console.aws.amazon.com/iam/home?#security_credential)

Encrypt Access Keys with a password:  
Turn this option on if you want to protect your Access Keys with a master password.

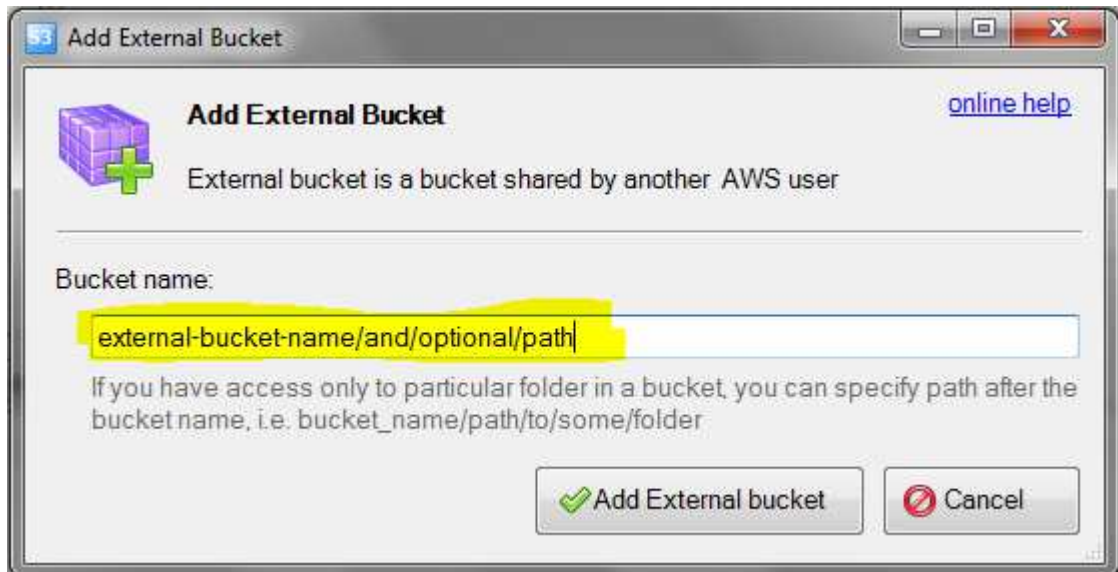

[Click here to sign up for Amazon S3.](#)

- h. If all your given details are correct, then the account will be added and the program will check for an Amazon Bucket List. Though you won't having access to the list, an alert pops up asking for adding an "External Bucket". Click on [Yes] to add.

- i. Next, one more dialog box pops up asking for your assigned directory location. Please paste the “Bucket Name” provided by Click&Pledge.

Your S3 Browser is ready and will list two of CSV files.

NOTE: You don't have permissions to delete the files, but you can download the CSV file, make the changes and upload. Because you don't have delete permissions but can overwrite the files.
